Federal Incentives

- **30C Tax Credit**

- The primary federal tax incentive for EVSE infrastructure has been the alternative fuel vehicle refueling tax credit. The 30C credit is 30% of the cost of a qualified property, with the credit limited to \$30,000 for businesses at each separate location.
- The credit is now good until December 31st, 2021. The credit can also be used retroactively on a qualified property placed into service after December 31st, 2017.
